

Subject Index

A

Aggression 246
Aging 105
Alpha-Agonist 259
Alpha-Antagonist 259
Alprazolam 229
Aminotetralin 259
Amitriptyline 186, 371
Amphetamine 43, 242, 259, 268, 360, 371
Antianxiety drugs 229
Antidepressants 199
Antihistamines 156
Antipsychotics 1
Anxiety 7, 109, 229
Anxiolytics 109
Apomorphine 146, 268
Arecoline 85
Avoidance 1, 322

B

Barbiturates 212
Benzodiazepine antagonist 284, 292
Benzodiazepines 229
Benztropine 156, 223
Beta-Adrenergic antagonists 53
Blood-brain barrier 98
Butyramide hydrogen succinate (BAHS) 367

C

Canonical correlation analysis 140
Carbidopa 234
Catalepsy 150
Cerebrospinal fluid 376
Chlorpromazine 1, 301, 376
Cannabis 117
Chlorpromazine 376
Chronopharmacology 150
Circadian rhythms 150
Citalopram 199
Classical conditioning 109
Clonidine 17, 53, 259, 327
Clozapine 1, 360
Collicular lesions 272
Conditioned avoidance 356
Corticosterone 81
Cotinine 164
Cyclic nucleotides 309

D

Depression 53, 205, 236, 332
Desipramine 129
Desmethyldesipramine 344
Diazepam 7, 246, 279, 292, 301
Diphenhydramine 156
Disulfiram 289
Dopa 98
Dopamine 31, 43, 146, 159, 186, 379
Dyskinesia 105, 223, 234

E

Electroshock therapy 53
Enkephalin 186
Ethanolamine-o-sulphate 186
Ethanol 11, 66, 74, 81, 212, 242, 253
Ethology 246
Exploration 179, 284
Eye movements 74, 168

F

Fatty acids 81
Fenfluramine 336
Flight 246
Fluoxetine 356
Flupentixol 58
Flupentixol decanoate 58
Food deprivation 336
Food intake 336

G

GABA 186
Genetic marker 171
Glucose 348
Glycolysis 348
Grooming 309
Growth hormone 53, 217

H

Haloperidol 1, 134, 150, 223, 272, 379
Head twitches 309
Hemispheric asymmetry 168
Hexamethonium 317
Histamine 156
Holeboard 179
Hydroxydopamine 134
Hyperbaric pressure 11

I

Imipramine 94, 301, 327
Intruder mice 246
Isoprenaline 98

K

Kainic acid 134

L

Learning 37, 66, 117
Lithium 94, 236, 289, 348, 387
Locomotor activity 66, 114, 179, 186, 259, 284, 292, 309, 371
Lorazepam 284
LSD 179

M

Mecamylamine 317
Methylphenidate 31
Mice 31, 259, 292, 339
Molindone 1
Monkeys 17, 37, 53, 156, 223, 295
Monoamine oxidase inhibitors 205
Mood 7, 217

Morphine 212, 322
Muscimol 272
Muscle relaxation 279

N

Naloxone 305, 336
Naltrexone 295
Narcotic antagonists 295
Neonatal rats 114
Neural development 371
Neuroleptic 1, 58, 105, 109, 140
Neurotoxicity 43
Nicotine 164, 317, 339, 383
Noradrenergic receptors 327
Norepinephrine 259
Normal subjects 7
Nortriptyline 193
Noxious stimuli 1

O

Olfactory stimuli 246
Open field test 279
Operant behavior 17, 156, 339
Opioids 295
Oral dyskinesia 134
Oral stereotypy 272
Oxygen toxicity 11

P

Palmar sweating 7
Panic disorder 229
Passive avoidance 66
Pentobarbital 37
Phencyclidine 295
Phenoxybenzamine 259
Phosphodiesterase inhibitors 309
Physical dependence 17
Physostigmine 268
Picrotoxin 186
Pigeons 305
Piperazine 168
Piracetam 268
Place preference conditioning 379
Plasma levels 199, 284, 344
Plasma nicotine 164
Plasma noradrenaline 236
Platelets 171, 175
Platelet serotonin 236
Polyuria 387
Prenatal administration 371
Prolactin 58, 217
Promethazine 156
Prophylactic effect 301
Psychopathology 24
Psychosis 234
PTZ-induced seizure 289
Public speaking 7

R

Radial maze 117, 268
Rating scale 236

VIII

Rats 94, 98, 117, 124, 134, 186, 268, 272, 284, 309, 336, 344, 371
 Reaction time 383
 Receptor binding 146
 Receptor sensitivity 327
 Reinforcement 379
 REM sleep 367
 Renal water handling 387
 Reserpine reversal 259
 Rolipram 309

S

Schedule-controlled behavior 1
 Schizophrenia 168, 171, 301, 376
 Scopolamine 268, 292
 Sedation 284
 Self administration 17
 Self-medication 242
 Sensitization 31

Serotonin 114, 168, 171, 175, 217, 234, 332, 356
 Serotonin binding 205
 Serotonin syndrome 205
 Serotonin uptake 332
 Serotonin (5-HT) uptake inhibition 199
 Serum levels 58
 Shock postponement schedules 322
 Shock sensitivity 66
 Smoking 383
 Social behavior 246
 Spiroperidol 146
 State dependent learning 37
 Stereotypy 179, 360
 Stimulus effects 212
 Stress 81
 Striatum 134
 Substantia nigra 272
 Sucrose consumption 253
 Supersensitivity 53, 360
 Symptom profiles 24

T

Tardive dyskinesia 134
 Tension-reduction theory 242
 Tetrabenazine 223
 Thiothixene 1
 Tolerance 43, 85, 129, 223, 284, 322, 339
 Tranlycypromine 101
 Tricyclic antidepressants 129, 205, 332
 Tryptophane 98, 217

V

Ventral tegmental area 186

W

Water intake 129
 Working memory 268

Y

Yohimbine 327
